Subject: HS2

Dear Mr Adams,

My Parish Council are considering their response to the HS2 development, the replies to which are scheduled for 9th March deadline.

We realise that there is no point in objecting to the line as it has already been agreed.

Whilst there are no real details of the development other than a drawing of the route we want to ensure that we can get the 'best deal' for the village as far as landscaping and noise reduction is concerned.

We also need to know asap where the service village will be as this could treble the number of people and vehicles using the local roads.

Could you let us know your position on the HS2 route and also if we would be able to lobby the Parliamentary Committee after the detailed plans are available to request funding for the village.

Regards

Gwyneth Stephenson

Clerk, Barkston Ash Parish Council
